

Senate Energy and Natural Resources

energy.senate.gov

202.224.4971

The Energy and Natural Resources committee has broad jurisdiction over the nation's energy interests. Its far reaching legislative activity can be described in the following areas: energy resources and development, including regulation and conservation, strategic petroleum reserves and appliance standards; nuclear energy, Indian affairs, public lands and their renewable resources; surface mining; Federal coal, oil and gas, other mineral leasing, territories and insular possessions; and water resources.
